Dear Harold thanks for the copy of O in N.O. I didn't realize it had been published in paperback. I appreciate your giving up one of the hard to get copies. I am concerned about your health from the things you have been telling me it sounds like mal-practice or ignorance. You mention the fact that you don't know of a phlebitis specialist. My friend in San Francisco had one here in L.A. . I can get his name. Also, I am going to ask my friend to write you and tell you of history with this affliction in hopes it might give you some first hand encouragement. I am almost finsihed with PostMortem and am schocked even though I am really past that stage. I am more shocked by the attitude of the people in this country. I can see how Hitler did it and today things are much more sophisticated in that field of conditioning the masses. I have spoken to the political cartoonis to for the L.A. Times, Paul Conrad, and am going to have lunch with hims and give him a copy of POST MORTEM. I am gettimg about as much response from the people here about the JFK cover up as you are getting info from the FBI. But. I do know things can change instantly. I am encloseing a check for 5 more copies of Post Mortem and to cover the Copy of White Wash and O in N.O.

Please try not to knock yourself out; let me know if I can do anything to help .

Sincerly,

Paul

P.S.
If there is any charge for tapes buy a tape for the Recorder —
